# HIGH SCHOOLS

High schools are schools that serve students from 9th to 12th grade. Students typically begin high school at 14 years old and take at least four years to finish. Any student, regardless of what language they speak or previous education, can enroll in NYCPS high schools until they are 21 years old.

When you complete the graduation requirements, including taking certain classes and passing state exams, you will earn a high school diploma. A high school diploma can help you go to college, vocational programs, or get a job.

## How to Enroll in High School

If you are 14-21 years old and you would like to enroll in a NYCPS high school, you should visit a local “Family Welcome Center” and speak to an enrollment counselor about your options.

### If you choose a **local or International High School:**

The Family Welcome Center will give you an assignment letter. This letter will have the name and address of the school you will attend. You should contact the school directly and complete the enrollment process in person at the school.

### If you choose a **Transfer High School:**

The Family Welcome Center will give you one or more referral letters. Each letter will have the name and address of a transfer school. You should contact each school and set up an appointment for a visit. Transfer schools have their own admissions process where they determine if a student is a good match.

### **NOTE:**

If you do not get enrolled at any of the schools that you visit, you should **return to the Family Welcome Center for more options.**

On the next page, you can find a list of all Family Welcome Centers, and their contact information. Family Welcome Centers are open from 8am - 5pm, Monday - Thursday; 8am - 3pm, Friday. Translation and interpretation services are available at Family Welcome Centers.
